PROFILE

Full-Stack Web Developer with more than 17 years of experience in the development, design and technical maintenance of websites, web applications, e-commerce solutions and custom CMS systems. Strong focus on PHP/MySQL, WordPress, React, Next.js, TypeScript, REST APIs and responsive user interfaces. Experienced in independent project delivery, client communication, troubleshooting, maintenance and continuous improvement of existing systems, as well as the efficient use of modern AI tools to support and accelerate development and design workflows.

WORK EXPERIENCE

Freelance Full-Stack Web Developer

2025 – Present

Germany / Remote

- Develop and enhance modern web applications with React, Next.js, TypeScript, PHP and MySQL.
- Design and implement REST APIs, custom CMS solutions, PWA features and responsive user interfaces.
- Integrate third-party services and payment systems and provide technical support, troubleshooting, deployment and maintenance for production websites.
- Use modern AI tools for code analysis, debugging, prototyping, technical documentation, UI/UX ideation and workflow optimization.

Data Quality Analyst & Development Support Specialist

Oct 2023 – Dec 2024

United Nations (IOM) · Valencia

- Supported technical improvements to internal applications and workflows, drawing on a PHP/Laravel development background.
- Performed data-quality reviews, issue analysis and process optimization, reducing data errors by approximately 20%.
- Worked with sensitive data in accordance with confidentiality and data-protection requirements.

Lead Full-Stack Developer / Founder

2017 – Jul 2023

Barmaja Group

- Developed custom websites, web applications, e-commerce platforms and CMS solutions for clients.
- Led technical delivery from UI/UX and frontend through backend, database, deployment and maintenance.
- Led developer and design teams and worked directly with clients and stakeholders.

Senior Web Developer & Digital Operations Manager

2013 – 2017

UCMT Institute

- Developed and maintained web applications and digital platforms while improving internal digital processes.
- Owned technical implementation, continuous improvement and digital operations.

Lead Web Developer / Head of Design & Development

2009 – 2013

WAED International

- Led and delivered web and design projects and supported development and design teams.

Web Developer → Head of Design & Development

2003 – 2009

Early Host International

- Joined as a Junior Developer while at university and progressed to lead the Design & Development function.
- Designed, developed and delivered websites and digital platforms for a broad range of clients.
